## Why we should Bootstrap

→ It increases development speed

→ Assure responsiveness.

→ Adds consistency.

→ Ensure cross-browser compatibility.

→ Large Community.

→ Customizable.

3 ways to use Bootstrap.

1→ Using link (CDN)

2)→ Downloading bootstrap files → Js file
→ css file

3)→ (NPM) → install packages

images →

e Commerce →

food delivery →

almost any kind of website.
